

**PETA-LEE WOOLF,
'CONVERGENCE'**

Peta-Lee is passionate about using traditional crafting skills to create uniquely modern interior and fashion items, such as her popular scarves created from handmade felt. She expresses herself through colour and by combining crafted materials with felt. For 'Convergence' she used felt made from merino wool and mohair, which she applied to a vase to produce a sculptural design. She works with crafters from rural communities, sharing skills and knowledge. For her, living in South Africa is about the collective rather than the individual, and being in harmony with nature. Her work is sold through retail outlets, which include The Space (011-327-3640) and Stefania Morland (021-422-2609). **From R700. Contact Peta-Lee on 011-728-8101 for stockists or visit www.peta-lee.co.za.**
